

# SMART Board® 6000S series

Interactive displays with exclusive technology to bridge physical and digital learning and sensors to optimize the classroom environment.

65" | 75" | 86"

### Bridge physical and digital learning

Exclusive ToolSense™ technology enables students to manipulate real world objects that are automatically recognized by the display.

### Industry-leading touch and ink

HyPr Touch™ with InGlass™ provides precision combined with a low contact threshold to ensure that writing is free from errors and artifacts.

### Optimized learning comfort

Integrated environmental sensors including temperature and humidity boost learning while reducing utility costs.

### FREE Learning Software Included

SMART Notebook basic version

Bonus 1-year SMART Learning Suite

**FEATURING**  
iQ embedded computing

**EXCLUSIVE**  
SMART Ink®

**EXCLUSIVE**  
Simultaneous  
Tool Differentiation

## Unparalleled Collaborative Experience

With 30 years of experience in education technology, SMART interactive displays are designed to support teaching approaches that affect learning outcomes.

### Multiple students, tools and colors at the same time

**Simultaneous Tool Differentiation** frees multiple students to write, erase and move notes at the same time. **Pen ID™** recognition and **Object awareness™** detection automatically make pens write, fingers move and palms erase.

### Write and save notes directly into applications

**SMART Ink®** software lets teachers write over videos and into **PDFs, Microsoft Office® files** and websites, then save notes in almost any file type. Convert notes to text and access spotlight, magnifier and screen shade tools.

## Built to use. Built to last.

Durable and commercial-grade, SMART Board displays have received many safety, regulatory and environmental certifications, giving you peace of mind that they adhere to government or other regulatory requirements.

-  4K Ultra HD resolution
-  ENERGY STAR® certification
-  Accelerated Life Testing
-  Conflict-free materials and sourcing
-  LED rated for 50,000 hours
-  Regulatory and environmental certifications
-  Fully heat-tempered, anti-glare glass
-  SMART Assure warranty\*
-  Silktouch™ frictionless surface

**INCLUDED**  
**SMART Remote Management**  
 lets you efficiently maintain, secure and support all your devices – including SMART Board displays with iQ.

\*Includes Advanced Hardware Replacement. Terms and conditions including access to Onsite Support varies by region. Contact your local reseller or distributor for information and visit [smarttech.com/warranty](http://smarttech.com/warranty)

## Engage students. Empower teachers.

Together with **SMART Learning Suite** software and **flexible computing** options, SMART Board displays give teachers endless ways to quickly create and deliver dynamic lessons.

**SMART Learning Suite** transforms static content into interactive lessons including collaborative workspaces, game-based activities and formative assessments.

### Desktop experience

Teachers can connect their Windows or Mac® computer and deliver interactive SMART Notebook® lessons at the display. Time-saving activity and assessment templates are easy to customize for all grades and subjects.

### Online experience

Teachers can add game-based and collaborative activities to a variety of file types and send lessons to student devices to complete individual handouts or work together in collaborative workspaces.

**Flexible computing** options put everything teachers need to seamlessly access and transition through a variety of lesson content in one place.

### iQ Android™ experience

iQ provides teachers one-touch access to SMART Notebook lessons and collaboration tools including a whiteboard, web browser, apps library and native, wireless screen sharing.

### Windows® experience

Give teachers access to Microsoft Office files and all their applications on a full Windows 10 Pro computer right at the display – available with a variety of Intel® Core™ processor options.

### Chrome OS™ experience

Teachers can access the Google Play Store and their apps at the display, and interact with content including ink and touch powered by Object awareness – only with SMART Board displays.

## Get the most out of your SMART solution

Your purchase is just the beginning. Our implementation services, professional learning and technical support resources help educators learn to use their SMART solutions, hone their technology skills and improve student learning outcomes.

### Professional Learning

SMART provides complimentary professional learning plans, and online courses, certifications and webinars that cover both functional and pedagogical topics.

### Support Services

Receive expert support from SMART, with the experience, knowledge, and resources to ensure a fast, effective technology implementation.

### Technical Support

So much more than downloads and guides, SMART support has tons of resources to get you started and a thriving community of educators to tap into.
