Jump 'n' Learn

'PLAY' - OUR BRAIN'S FAVORITE WAY OF LEARNING

Play is children's (and the brain's) preferred learning tool, so why not use play as a part of teaching? ActiveFloor provides schools, nursery schools, after-school care facilities, libraries and hospitals with new ways of furthering educational, social and motor development in a fun way.

Provide children with the opportunity to learn in the way that is the most natural for them - *by using the whole body.*

inspired

THIS IS HOW ACTIVEFLOOR WORKS

The universe of ActiveFloor combines play and movement with learning, as the children navigate in and play various activity and learning games on the interactive floor, by using their feet.

ActiveFloor works at its best when multiple people play together, for example, a classroom, auditorium or a shared playing area. ActiveFloor helps furthering social skills, improving teamwork, forming a creative learning environment, and in addition to all that, it is SO MUCH FUN! There is a game for every taste, and we keep developing new games.

Make learning fun, inclusive and motivating!

A photograph showing a teacher and several young students gathered around a wooden table. They are looking at a tablet computer. The teacher's hand is pointing at the screen, which displays a colorful educational interface. One student is pointing at a specific element on the screen. Another student is looking at a different tablet on the table. The scene is brightly lit and appears to be in a classroom or learning center.

NOW EVERYBODY CAN CREATE LEARNING GAMES

In a very few minutes you can create your very own interactive learning games. With a login to ActiveFloor's Online Platform, you can develop games by use of any mobile device or computer. You decide in which game universe your content is made, and which subject, theme and age group it is tailored to. You can also give the children homework where they have to develop their own games.

In addition to the fact that you can make your own games, you can play a great number of already existing learning games that have been made in collaboration with teachers and educators.

"The great thing about ActiveFloor is that everybody gets a chance to show that they are good at something. Some are good at solving equations, others have a great memory, and everyone (especially boys) loves to compete"

- Jesper, Mathematics teacher & educational developer

THE SOFTWARE AND GAME LIBRARY

The software is connected to a library of games where ActiveFloor, on a continuous basis, release new content which is aimed at various age groups, learning targets and themes.

There are thousands of exercises for all subjects and levels available through the ActiveFloor software – and you can even make your very own game content. The learning games with content for maths, language and science provide you, as a teacher, with plenty of opportunities to integrate movement and ‘fun’ in the teaching of both small and big children.

The software is updated continuously with improvements, new games and game templates.

THIS IS WHAT YOU GET AND WHAT IS INCLUDED IN THE SOFTWARE AND SERVICE PACKAGE

✓ All hardware

The solution comes with a projector kit, a vinyl floor, computer, speakers – basically, everything that you need to get your ActiveFloor ‘in the game’.

✓ Software & Licence

The software has a unique license so your users can access your installation, your games and if you want to create your very own game and learning content.

✓ Service & Support

The ActiveFloor license comes with free support and service: we are always just a phone call away and ready to help if any problem arises.

✓ Continuous updates

You will receive all new updates, new games and improvements at no extra costs, during your license period.

✓ A big game library

You will be connected to a game library where, in collaboration with teachers, we will continuously release game content tailored to age groups, learning targets and themes – in this way, you will always be able to find games that are ready to go.

GET STARTED RIGHT AWAY!

Are you unsure which solution fits your needs? Let go of your worries – together we will find the right solution for you, so that you won't have to wonder if you picked the right one.
