SMART
Education solutions

Make class time quality time ⭐

Connect any classroom with SMART

SMART solutions are designed for active learning. Our software and hardware connect students to create a truly engaged learning environment wherever they are.

When you choose SMART for your classrooms, you get technology that works on its own and with existing platforms such as Microsoft and Google.

So teachers can spend more time teaching and less time figuring out new complicated tools, signing into endless platforms and breaking lesson flow.

Connections that matter

At SMART, we're on a mission to pioneer technology to help teachers and learners make authentic, meaningful connections. We believe these are the connections that matter and that inspire greatness.

Explore stories of teachers, students and school communities around the globe connecting through the power of technology to see the real impact of choosing SMART.

The world's ONLY interactive technology for true student collaboration

Only SMART displays with iQ enable multiple users to intuitively write, erase, touch, and gesture at the same time, across platforms and applications, without interfering with another's tool choice.

That's ALL interactions—not just "pen and touch" like the other guys.

The effortless choice for educators and IT professionals

SMART provides all the services you need to save time and adoption pains: exceptional ease of use, built-in security, automatic OTA updates, and extensive support.

Quality that saves time
From seamless installation to "walk up and teach" ease of use, IT Managers and teachers save time for what matters most.

Quality that lasts
SMART Boards are built to last, and with OTA and appliance based upgrade paths, your displays stay up to date and relevant.

Quality that you can trust
We take security seriously. Our secure iQ user profiles, NFC sign-in, and remote management options give you the peace of mind you need.

SMART

Explore what's possible

Built to evolve around your needs, the SMART Board® RX series interactive display is also the **only** display on the market that offers user-programmable tools.

Next-level engagement starts here.

Blend physical and digital worlds

Turn static lessons into immersive learning experiences with SMART's Tool Explorer technology. Give students the ability to make their mark using physical, programmable stamps.

Performance like you've never seen before

Featuring optically bonded glass, the RX series offers the most-precise inking experience yet. RX series effortlessly integrates with student devices and comes packed with built-in tools like digital manipulatives for quality collaboration and brainstorming.

Security meets convenience

Secure multi-user profiles save teachers time with quick access to their own cloud storage, files, apps, and more. Easily sign-in with QR code, web link or NFC card – no admin setup required.

Hardware features:

- 65" | 75" | 86"
- 4K UHD LED screen with 50,000 hours lifespan
- Optically bonded anti-glare and anti-fingerprint heat-tempered glass
- Up to 40 touchpoints
- <4ms response time
- 2x 20W speakers, 1x 15W subwoofer
- Integrated linear 8-microphone array
- Ports for HDMI, USB-C, USB-B, USB-A, VGA

Included accessories:

- 2 x multi-function stylus
- 2 x eraser
- Remote control
- SMART ID cards x2

Software features:

- iQ 4 embedded experience
- Android 13 with Google EDLA
- Screen sharing
- Web browser
- Cloud storage access
- Personalized home screen
- SMART Notebook
- SMART Ink
- SMART Remote Management
- Built-in teaching tools, templates, graphic organizers and manipulatives
- Split screen and Picture-in-picture

Security features:

- Fully secure multi-user profiles
- Integrated NFC reader
- Screen lock

Powered by iQ

Easier workflows for educators, a feature-rich whiteboard, built-in tools and resources and student device integration—all designed to save you time and offer a personalized user experience.

iQ embedded computing puts everything teachers need to confidently teach at their fingertips, regardless of their tech comfort level.

iQ at a glance

- EDLA certified by Google
- Install any app with Google Play
- Built on Android 13. Automatic OTA security updates & feature upgrades
- Fully secure multi-user profiles
- 4 ways to sign-in including NFC and QR code
- Personalized home screens, widgets, settings and apps
- Share files to Google Drive, One Drive and other cloud services
- Secure files library with Lumio integration

The "walk up and teach" whiteboard

Make the most out of every lesson without overwhelming prep – even if you've never used a SMART Board.

- Research-based **educational templates and activities** engage students in any subject
- Import multi-page PDFs effortlessly
- Whole-class student device integration

Built-in teaching tools:

- Ad-free YouTube and image search
- Graphic organizers
- Digital manipulatives & interactive backgrounds
- Polling & collaboration activities for student devices
- Freeform & categorized brainstorming
- Measurement tools
- Classroom tools like timers and spinners

Engage in more ways, both in and out of the classroom

This is so much more than screen sharing. SMART displays with iQ allow for whole-class participation, truly active learning and a level of student collaboration that you just haven't seen before.

Broadcast live whiteboard to unlimited* devices

Collaborative student tools:

- 2-way annotation
- Ink and text tools
- Move and resize objects

*Unlimited connections available to whiteboard. Speed & functionality subject to individual network capabilities

10 ways to connect students

| Whiteboard	Screencast	Wired
1. Live whiteboard broadcast 2. Whole-class collaboration access	3. Airplay 4. Google cast 5. Miracast 6. Screencast app 7. Web app	Including plug and play Windows Ink support 8. HDMI + USB 9. 65w USB-C 10. Share through your choice of video conferencing solution

5 Teacher control options

Whiteboard	Screencast

- Integrated NFC reader
- Screen lock

Make room for more: More students, more ideas, more inspiration

Only SMART provides true multi-user interactivity. Students can write, erase, touch, and use digital manipulatives at the same time without interfering with each other's work.

An investment designed to last

Save money for years to come. The future-proofed MX series is designed to evolve alongside your classroom thanks to over-the-air (OTA) updates and OPS-based upgrade paths.

Effortlessly manage and support groups of displays withincluded SMART Remote Management software.

Security meets convenience

Secure multi-user profiles save teachers time with quick access to their own cloud storage, files, apps, and more. Easily sign-in with QR code, web link or NFC card – no admin setup required.

- 4K UHD LED screen with 50,000 hours lifespan
- Up to 40 touchpoints
- <8ms response time
- 2x 20W speakers
- Ports for HDMI, USB-C, USB-B, USB-A, VGA

Software features:

- Android 11 with a migration option to Android 13
- Screen sharing
- Web browser
- Cloud storage access
- SMART Notebook
- SMART Ink
- SMART Remote Management (SOLD SEPARATELY)
- Access to interactive widgets
- Split screen and picture-in-picture

Learning software teachers love

FREE with no subscription required!

SMART Ink

Superior digital ink that behaves how you expect and doesn't interfere with your teaching. SMART Ink is the ONLY inking experience on the market that really is as easy as putting pen to paper:

- **No overlays:** Write and navigate within a document at the same time
- **Intelligent activation:** Just pick up a pen and write
- **Flexibility:** Write, move, resize, and use ink-to-text in any application
- **Easy saving:** Save your ink into PDF and Microsoft Office file formats

SMART Notebook

Optimized for SMART Board interactive displays, award-winning SMART Notebook is FREE learning software that helps you create dynamic, interactive lessons that encourage active learning.

Enable hands-on learning in a digital environment no matter what you're teaching, increasing student engagement and knowledge retention.

- Tools to help focus student attention like spotlight, screen shade, and Magic Pen with disappearing ink
- Simple and intuitive design for Mac and Windows
- Thousands of free, ready-made lesson resources from SMART Exchange

Built for environmental sustainability

SMART displays have a seriously long lifespan
With over-the-air updates, upgradable computing modules, and rigorous Accelerated Life Testing, SMART helps maximize product lifespan and minimize hardware replacement.

Shipping and packaging that's recyclable and fuel-efficient
Minimize the carbon footprint of your technology purchase with SMART's recyclable packaging that has been optimized and redesigned to fit up to 30% more products into shipping containers—now that's a shift you can feel good about!

An ethically-sourced supply chain, from top to bottom
SMART sources components and materials from companies that meet our high standards for human rights, ethics, and environmental responsibility.

The details that make a difference with energy
ENERGY STAR® certified and EcoDesign compliant.

Energy-saving features:

- Proximity sensors
- Ambient light sensors adjust brightness for your environment
- User-adjustable sleep timing and power-saving settings
- OPS upgradable embedded computing
- Automatic OTA updates for new features and security updates
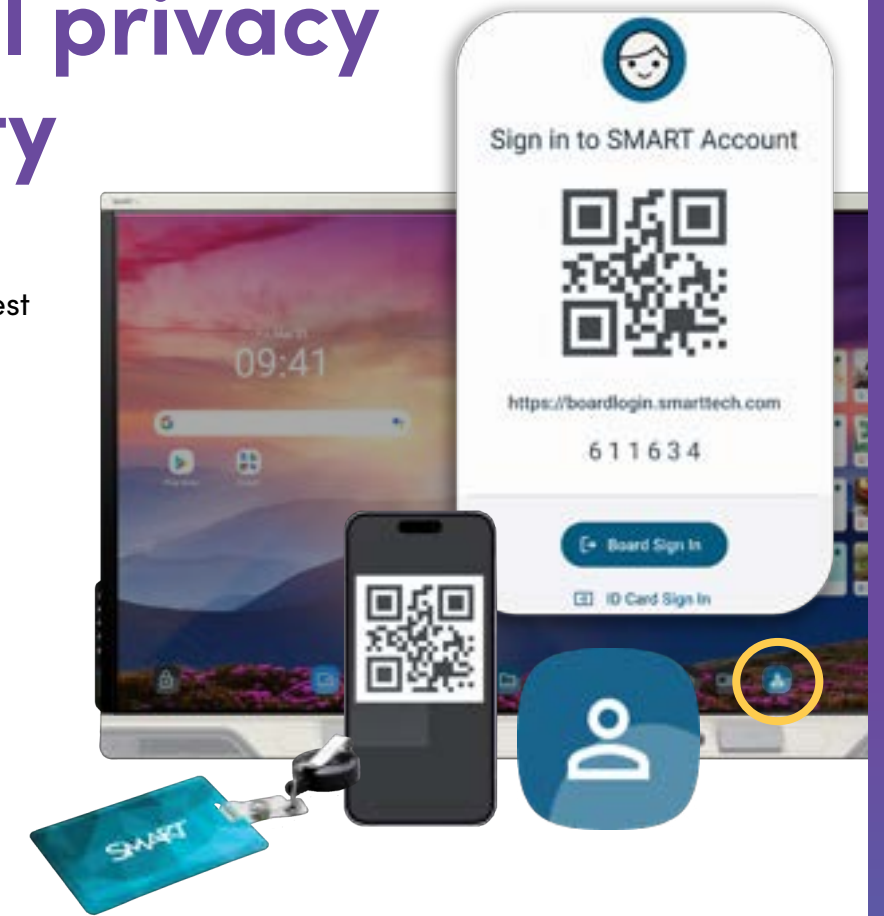

Our certifications:
Energystar | EcoDesign | WEEE | RoHS | LEED | ISO 14001

Exceptional privacy and security

Anchored in privacy and security, iQ embedded computing is purpose-built to provide the highest security standards

Displays with iQ enjoy:

- EDLA certification by Google
- Technical security features built to mitigate security threats to standard Android devices
- Automatic OTA security patches and updates
- Support for security certificates for authenticating and accessing networks
- Admin lockdown of setting changes
- Restrict access to Google Play
- **Fully secure multi-user profiles through SMART Account:**
  - No admin setup required - use with any display
  - Utilize your Google and Microsoft authentication protocols and MFA
  - OS-level profile security
  - 4 ways to sign-in including NFC and QR code

Customer privacy comes first:

Trusted data storage and processing

- Customer data is hosted using best-in-class Amazon Web Services and Google Cloud data centers
- Every data center is ISO 270001 and SOC 2/3 certified **GDPR compliant**
- Compliant with all local and federal legislation
- European customers can choose to have product user data stored and processed in the EU

Designed to go the distance

Introducing the SMART AM60 iQ appliance
with Google EDLA certification

Refresh your technology at a fraction of the cost

SMART interactive displays are designed to go the distance. Whether you're buying brand-new displays or supporting older ones, SMART's AM60 keeps them all performing like they're brand new.

Seriously. We even offer upgrade options for displays released as early as 2015.

Our AM60 appliance module includes:

Google EDLA certification

Android 13 OS

Free automatic OTA upgrade to SMART's iQ4

Enjoy secure, powerful embedded computing on your interactive display and unmatched value for your budget with SMART's proven, industry-leading commitment to upgradability.

Get the SMART AM60 iQ appliance

The power of iQ and Google EDLA on your SMART interactive display to give you unmatched value for your budget.

The budget-friendly AMG1 upgrade for GX

Specifically designed for SMART's GX model, the AMG1 provides the Google experience you want at the price you need.

SMART Board Computing modules

SMART Board Computing modules bring the power of **Windows 11 Pro** to your interactive displays. Access Microsoft Office® files and all your applications for true walk up and use simplicity.

Accessories

SMART Document Camera 650

Connect digital learning to the physical world in high definition. Capture, share, and connect both in-person and remote students to tangible concepts. Perfectly integrate physical notes into SMART Notebook lessons. A remote control makes the capture, recording and broadcast of lessons simple.

- 4K Ultra HD, 13 MP camera
- Seamless integration with iQ whiteboard
- 10X optical zoom, 230X total zoom
- Built-in microphone
- Wired or dual-brand Wi-Fi
- Peer-to-peer wireless connectivity
- HD video conferencing (UVC compliant)
- 5-year warranty

- Ultra HD 4K resolution with auto-framing
- Compatible with all mic-array enabled SMART interactive displays
- Remote control included

SMART Camera UHD 120 Webcam

Provide a rich, immersive visual experience designed for the needs of the modern classroom. The SMART Ultra HD Camera 120 mounts flush to the top of the interactive display bezel for effortless remote and hybrid learning.

SMART Podium 624

Easy to use, deploy and support, the SMART Podium helps lecturers and assembly presenters communicate ideas more effectively.

- Compatible with any projector, display, and computer
- Markup static content when presenting, write and save notes
- Use presentation tools to guide students through key concepts and improve comprehension

- 24" HD touch screen with cordless, battery-free pen and adjustable stand
- Plug & Play support for Windows Ink
- Works with your conferencing solutions
- Includes SMART Ink for Windows and Mac OS

Get more impact from your student devices

Flexible learning
Lumio lets teachers combine and edit different file types into their lessons, adjust lesson delivery on the fly with flexible pacing to adapt content to student needs.

Meaningful collaboration
Shared workspaces and flexible ways to group students make it easy for students to collaborate with each other in dynamic ways. Teachers can track student contributions to monitor progress and provide feedback in real-time.

Game-based and active learning
Lumio comes equipped with tons of customizable game templates, graphic organizers, and digital manipulatives, all of which students can access at home. It's easy to make learning fun with Lumio.

Aligned to best practices
Lumio gives teachers the tools they need to implement active learning, student wellbeing, and a student-centered, personalized learning approach.

Lumio™

Light up learning

Lumio offers more ways to effortlessly make learning fun and engaging on student devices.

Save costs and simplify your tech approach with a tool that lets teachers do it all—plan, evaluate and deliver fun, engaging lessons—in one powerful web-based learning platform.

Loved and trusted by over 1.3 million teachers worldwide

"With Lumio, we're able to lean into our district's goal of leading with students at the forefront of education. And that's how it should be."

**Diane Harazin**
Supervisor of Instructional Technology

Specifically designed to improve student outcomes—it's not just fun, it works!

Together, step by step

With professional learning that moves beyond features and functions, we make it easy for your teachers right from the first click.

Live and on-demand webinars
Learn how to create robust lessons and activities with Lumio.

Badging and certification
Educators can engage in exciting self-paced coursework to build their Lumio skills and boost student engagement.

Customized professional learning
Enhance teaching practices and improve student outcomes with live training designed for you.

Why educators love Lumio:

✓ Import and combine existing files (PDFs, Google Slides, PowerPoint, and Notebook)

✓ Thousands of ready-made lessons and resources
   - Game-based activities and team quizzes
   - Graphic organizers
   - Digital manipulatives

✓ Convert any resource into a digital handout

✓ Small-group and whole-class collaboration

✓ Teacher and student pacing

✓ Formative assessments and feedback tools
   - Polling and class discussions
   - Real-time class and individual student data

✓ STEAM tools like Desmos, Equation Editor and PhET

✓ Dedicated spaces for curating and sharing lessons with colleagues

✓ Access anywhere, on any device with a web browser

...and all the tools needed to create an engaging learning experience from scratch!

Why schools and districts love Lumio:

✓ Amplifies best teaching practices and actively engages students

✓ Increases the impact of student devices

✓ Supports instructional consistency and more efficient workflows

✓ Integrates with Google and Microsoft

✓ Easy deployment with OneRoster

✓ Earned third-party certification from Digital Promise for Research-Based Design

✓ Exceptional privacy and security, GDPR, COPPA, and FERPA compliant
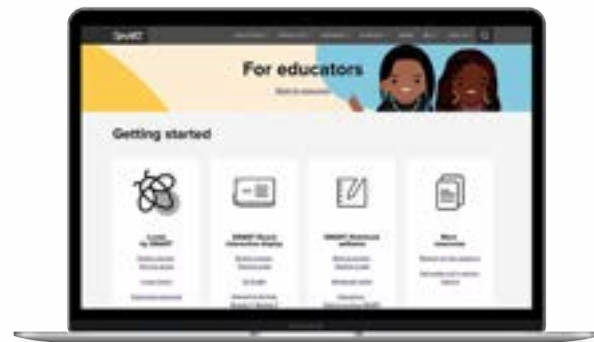

...and all at a much lower price than comparable options!
