## Shift+ Base Height-adjustable teacher's lectern.

Frame consisting of welded, powder-coated, U-shaped steel skids and a centrally positioned leg/post. Skids as standard with 4 casters (2 of which are lockable).

**Function:** The gas-filled strut is actuated by a hand switch on the edge of the lectern top. The hand switch is fitted with a safety cover to protect against unintentional actuation.

Lectern height in two fixed heights or infinitely height-adjustable with integrated gas-filled strut.

Lectern top (freeform) made of melamine-resin-coated LIGNOpal chipboard with glued-on plastic edge or of high-strength compact board. The corners are rounded (22 mm).

**Equipment:** Bookshelf made of sheet steel edged on three sides under the lectern top.

The following material groups are available to choose from: Frame made of steel: M1; Top made of LIGNOpal: L4; Highly compacted plate: L4.
