Shift+ Base Folding table and four-legged table.

Folding table:

Structure consisting of a centrally positioned steel tube cross-member with an articulated console. Folding function can be deployed with a two-hand safety actuator under the table top. With a fitting for securing the table top in the horizontal and vertical positions.

Table top (bottle-shaped) made of melamine-resin-coated LIGNOpal chipboard with glued-on plastic edge or of high-strength compact board. The corners are rounded (25 mm).

Frame consisting of two curved, powder-coated steel tubes and 4 lockable casters.

Table heights acc. to DIN EN 1729.

Function: With the table top folded upright any number of tables can be pushed together to optimize space.

Four-legged table (Cross):

Frame consisting of welded round steel tube legs with set-back rectangular steel tube casing frame, in each case powder-coated. Partly with tube-in-tube hexagon key height adjustment (see table). Tables with 4 plastic, felt or 2C universal glide elements or with glide elements and 4 lockable casters.

Table heights acc. to DIN EN 1729 in fixed heights or with step height adjustment with hexagon screw fastening.

Table top (bottle-shaped) made of melamine-resin-coated LIGNOpal chipboard with glued-on plastic edge or of high-strength compact board. The corners are rounded (25 mm).

The following material groups are available to choose from: Frame made of steel: M1; Top made of LIGNOpal: L4; Highly compacted plate: L4.
